

D.I.Y. Fungi
presents

Skills for Low-Tech Mushroom Cultivation

**Full day intensive on the
art & science of
mushroom cultivation!**

We'll learn:

- low-tech methods for growing mushrooms for food, medicine and earth renewal
- how to create your own mushroom cultures ("spawn")
- how to set up your cultivation space and build equipment
- hands-on skills to make liquid cultures, petri cultures, grain spawn, sawdust kits, and more
- Skills for working with fungi for remediation and soil

*85-100 sliding scale

Includes cultivation manual &
mushroom cultures!

Sat, April 9th
